I know -- it is sort of a fine line. Maybe we could reword that sentence to read, "These efforts will identify cleanup actions needed to address human health and environmental concerns and acknowledges the community's interest in redevelopment of this significant property along the Flathead River." Does that get us out of promising too much?

Yes, thanks, I thought about that and had it in there originally. We can put it in there, I just don't want to inflate expectations or overstate the power EPA has to affect a redevelopment outcome.

Hi, Rich.

Looks good to me. I'm glad to see a reference to reuse in the quote, but I think redevelopment may sound better to the community.

Thanks!  
Cynthia

Here are some suggestions for consideration. Looks messier than it is! I took a stab at the quote, still needs some work.

Let me know what you think... Rich x 6654

Hey Cynthia and Rich –

I've attached a draft press release for the Columbia Falls Aluminum Proposal. Feel free to review and edit as you see fit. I'm returning Wednesday 3/11 and can pick it back up then. As I said the other day, I'd like to get this to the State towards the middle/end of next week so they can review it in the event they want to have a similar release at the appropriate time.

Thanks,  
Rob
